Item 7.01. Regulation FD Disclosure.

As announced by Oxford Industries, Inc. (the “Company”) in its press release on December 26, 2017, the Company will be presenting at the ICR Conference 2018 in Orlando, Florida on January 9, 2018. The Company’s presentation is scheduled to begin at 8:30 a.m., Eastern time, and will be broadcast on the Internet on the Company’s website at www.oxfordinc.com.

During the presentation, and in related meetings with analysts and investors, the Company is announcing, among other things, that it is affirming its sales and earnings guidance for the full 2017 fiscal year, a 53-week fiscal year which ends on February 3, 2018. Specifically, for fiscal 2017, the Company expects net sales to grow to between \$1.08 billion and \$1.095 billion, with GAAP earnings from continuing operations in a range of \$3.23 and \$3.38 per diluted share and adjusted earnings from continuing operations in a range of \$3.55 and \$3.70 per diluted share. During the 52-week 2016 fiscal year which ended January 28, 2017, the Company generated \$1.023 billion in net sales, \$3.27 per diluted share in GAAP earnings from continuing operations and \$3.30 per diluted share in adjusted earnings from continuing operations. The Company’s affirmation of its fiscal 2017 guidance reflects its performance during the 2017 Holiday season, including solidly positive comparable store sales and gross margin expansion during the quarter-to-date period for the fourth quarter of the Company’s 2017 fiscal year.

The following table reconciles the Company’s current estimate for fiscal 2017 adjusted earnings per diluted share from continuing operations to the comparable GAAP earnings from continuing operations per diluted share and the Company’s actual fiscal 2016 adjusted earnings per diluted share from continuing operations to the comparable GAAP earnings from continuing operations per diluted share:

	Fiscal 2017	Fiscal 2016
	Guidance	Actual
Net earnings from continuing operations per diluted share:		
GAAP basis	\$3.23 – \$3.38	\$3.27
LIFO adjustments ⁽¹⁾	0.14	(0.22)
Inventory step-up charges ⁽²⁾	0.04	0.10
Amortization of recently acquired intangible assets ⁽³⁾	0.11	0.10
Transaction expenses and integration costs for recent acquisitions ⁽⁴⁾	0.04	0.04
Adjusted earnings from continuing operations per diluted share ⁽⁵⁾	\$3.55 - \$3.70	\$3.30

(1) LIFO adjustments represent the impact, net of income taxes, on net earnings from continuing operations per diluted share resulting from LIFO accounting adjustments. No estimate for future LIFO accounting adjustments (including for the fourth quarter of fiscal 2017) are reflected in the guidance.

(2) Inventory step-up charges represent the impact, net of income taxes, on net earnings from continuing operations per diluted share resulting from inventory step-up charges related to the Southern Tide acquisition in Fiscal 2016 and Lilly Pulitzer’s acquisition of certain Signature Stores in Fiscal 2017.

(3) Amortization of recently acquired intangible assets represents the impact, net of income taxes, on net earnings from continuing operations per diluted share resulting from the amortization of intangible assets acquired as part of the Tommy Bahama Canada, Southern Tide and Lilly Pulitzer Signature Store acquisitions.

(4) Transaction expenses and integration costs for recent acquisitions represents the impact, net of income taxes, on net earnings from continuing operations per diluted share relating to transaction expenses and integration costs incurred principally with the Fiscal 2016 Southern Tide and Fiscal 2017 Lilly Pulitzer Signature Store acquisitions, as applicable, which includes costs associated with distribution center integration, consulting and transition fees and other amounts paid to third parties.

(5) Amounts in columns may not add due to rounding.

In addition, in connection with the Company’s presentation at the ICR Conference 2018 and related meetings, the Company will be providing pro forma information as to its estimate of the impact of the tax legislation enacted by Congress in December 2017 on its anticipated fiscal 2017 results as if the 2018 tax laws were in effect for 2017.

Specifically, the Company expects that if the 2018 tax laws were in effect for its 2017 fiscal year, excluding the anticipated one-time favorable impact of the change in rates on deferred tax balances:

- the Company’s fiscal 2017 tax rate would be approximately 26%;
- the Company’s earnings per share would increase by more than 15%;
- the Company would realize more than \$10 million in increased cash flows; and
- there would be no material “toll charge” or repatriation of foreign earnings.

The impact of the tax legislation may differ from these pro forma estimates, possibly materially, due to, among other things, changes in interpretations and assumptions the Company has made, guidance that may be issued and actions the Company may take as a result of the tax legislation.

The Company reports its consolidated financial statements in accordance with GAAP. To supplement these consolidated financial results, management believes that a presentation and discussion of certain financial measures on an adjusted basis, which exclude certain non-operating or discrete gains, charges or other items, may provide a more meaningful basis on which investors may compare the Company’s ongoing results of operations between periods. The Company’s management also uses adjusted financial measures to discuss its business with investment and other financial institutions, its board of directors and others.

The information contained in this Form 8-K shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise be subject to the liabilities of that section, nor shall it be incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
