Investor Presentation
September 2018

Tommy Bahama

Lilly Pulitzer®

SOUTHERN TIDE

LANIER APPAREL

Safe Harbor

This presentation includes statements that constitute forward-looking statements within the meaning of the federal securities laws. Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "will" and similar expressions identify forward-looking statements, which are not historical in nature. We intend for all forward-looking statements contained herein or on our website, and all subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf, to be covered by the safe harbor provisions for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (which Sections were adopted as part of the Private Securities Litigation Reform Act of 1995). Such statements are subject to a number of risks, uncertainties and assumptions including, without limitation, competitive conditions, which may be impacted by evolving consumer shopping patterns; the impact of economic conditions on consumer demand and spending for apparel and related products; demand for our products; timing of shipments requested by our wholesale customers; expected pricing levels; retention of and disciplined execution by key management; the timing and cost of store openings and of planned capital expenditures; weather; changes in international, federal or state tax, trade and other laws and regulations; costs of products as well as the raw materials used in those products; costs of labor; acquisition and disposition activities, including our ability to timely recognize our expected synergies from any acquisitions we pursue; expected outcomes of pending or potential litigation and regulatory actions; access to capital and/or credit markets; and factors that could affect our consolidated effective tax rate, including the impact of the recently enacted U.S. Tax Reform. Forward-looking statements reflect our expectations at the time such forward-looking statements are made, based on information available at such time, and are not guarantees of performance. Although we believe that the expectations reflected in such forward-looking statements are reasonable, these expectations could prove inaccurate as such statements involve risks and uncertainties, many of which are beyond our ability to control or predict. Should one or more of these risks or uncertainties, or other risks or uncertainties not currently known to us or that we currently deem to be immaterial, materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. Important factors relating to these risks and uncertainties include, but are not limited to, those described in Part I, Item 1A. contained in our Annual Report on Form 10-K for the period ended February 3, 2018 under the heading "Risk Factors" and those described from time to time in our future reports filed with the SEC. You should not place undue reliance on forward-looking statements, which speak only as of the date on which they are made. We disclaim any intention, obligation or duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Information

The Company reports its consolidated financial statements in accordance with generally accepted accounting principles (GAAP). To supplement these consolidated financial results, management believes that a presentation and discussion of certain financial measures on an adjusted basis, which exclude certain non-operating or discrete gains, charges or other items, may provide a more meaningful basis on which investors may compare the Company's ongoing results of operations between periods. These measures include adjusted earnings, adjusted earnings per share, adjusted gross profit, adjusted gross margin, adjusted SG&A, adjusted operating income, adjusted operating margin and free cash flow, among others. Management uses these non-GAAP financial measures in making financial, operational and planning decisions to evaluate the Company's ongoing performance. Management also uses these adjusted financial measures to discuss its business with investment and other financial institutions, its board of directors and others. Reconciliations of these adjusted measures to the most directly comparable financial measures calculated in accordance with GAAP are presented in tables at the end of the Company's March 28, 2018 and September 12, 2018 press releases.

Basis of Presentation

All financial results and outlook information included in this release, unless otherwise noted, are from continuing operations and all per share amounts are on a diluted basis. Fiscal 2017, which ended February 3, 2018, was a 53-week year with the extra week included in the fourth quarter. Fiscal 2018 and Fiscal 2016 are 52-week years.

Comparable Store Sales

The Company's disclosures about comparable store sales include sales from its full-price stores and e-commerce sites, excluding sales associated with e-commerce flash clearance sales. Because fiscal 2017 had 53 weeks, each fiscal week in fiscal 2018 starts and ends one calendar week later than in fiscal 2017. To provide a more accurate assessment of the Company's fiscal 2018 comparable store productivity, the Company presents fiscal 2018 comparable store sales on a calendar-adjusted basis by comparing the fiscal 2018 period to the comparable calendar period in the preceding year. Thus, comparable store sales for the second quarter of fiscal 2018 compare sales in the 13-week period ended August 4, 2018 to the 13-week period ended August 5, 2017.

OUR MISSION

To maximize long-term shareholder value

OXFORD

OUR STRATEGY

To own, develop and use powerful, emotional brands to drive sustained, profitable growth

Solid Capital Structure and Cash Flow to Support Growth Strategy

- At August 4, 2018, \$25 million of borrowings and \$228 million of availability under \$325 million revolving credit facility
- Weighted average borrowing rate of 4.4% as of August 4, 2018
- In fiscal 2017, cash flow from operations was \$119 million; free cash flow was \$80 million
- On March 28, 2018, announced 26% increase to quarterly dividend to \$0.34 per share from \$0.27
- Capital expenditures are expected to be approximately \$50 million in fiscal 2018 primarily relating to IT initiatives, including additional omni-channel capabilities, new retail stores and restaurants, and investments to remodel existing restaurants and stores
