## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS QUARTER ENDED NOVEMBER 26, 2004

1. Basis of Presentation: We prepared the accompanying unaudited, consolidated financial statements in accordance with the rules and regulations of the Securities and Exchange Commission including the instructions to Form 10-Q and Article 10 of Regulation S-X. Such rules and regulations allow us to condense and omit certain information and footnote disclosures normally included in audited financial statements prepared in accordance with accounting principles generally accepted in the United States. We believe these consolidated financial statements reflect all normal, recurring adjustments that are necessary for a fair presentation of our financial position and results of operations for the periods presented. Results of operations for the interim periods presented are not necessarily indicative of results to be expected for the year. For more information regarding our results of operations and financial position, refer to the notes accompanying our audited financial statements contained in our Annual Report on Form 10-K. For the fiscal year ended May 28, 2004. As used in this report, "our," "us," "we" and similar phrases refer to Oxford Industries, Inc. and its consolidated subsidiaries; and "fiscal 2004," "fiscal 2005" and "fiscal 2006" refer to our fiscal years ended or ending on May 28, 2004, June 3, 2005 and June 2, 2006, respectively.
Our accounting policies applied during the interim periods presented are consistent with the accounting policies as described in our Fiscal 2004 Form 10-K.
Certain amounts in the prior periods' financial statements have been reclassified to conform to the current year's presentation.
2. Inventories: The components of inventories are summarized as follows:

|  | Nov. 26, 2004 |  | May 28, 2004 |  | Nov. 28, 2003 |  |

4. Acquisitions: On July 30, 2004, we acquired $100 \%$ of the capital stock of Ben Sherman Limited ("Ben Sherman"), which we operate as part of our Menswear Group. Ben Sherman is a London-based designer, distributor and marketer of branded sportswear, accessories, and footwear. The purchase price for Ben Sherman was $£ 80$ million, or approximately $\$ 145$ million, plus associated expenses of approximately $\$ 3.0$ million. The transaction was financed with cash on hand and borrowings under our senior revolving credit facility and unsecured notes payable to the management shareholders of Ben Sherman, both as described in Note 5.
The following table summarizes the preliminary fair values of the assets acquired and liabilities assumed at the date of acquisition for Ben Sherman. The purchase price allocation will be finalized upon finalization of certain preliminary estimates.

## 4. Acquisitions (continued):

On June 13, 2003, we acquired all of the capital stock of Viewpoint International, Inc., which we operate as the Tommy Bahama Group. The purchase price for the Tommy Bahama Group could be up to $\$ 325$ million, consisting of $\$ 240$ million in cash at closing, $\$ 10$ million in our common stock (776,400 shares), approximately $\$ 3.4$ million in transaction costs, and up to $\$ 75$ million in contingent payments, subject to the Tommy Bahama Group achieving certain performance targets. Such performance targets are based on earnings before interest and taxes after deduction of a capital charge based on net tangible assets.

For each of the four years following the acquisition, the selling stockholders of the Tommy Bahama Group will receive an annual basic contingent payment if the Tommy Bahama Group's earnings are greater than $90 \%$ of the applicable target and will receive the maximum annual basic contingent payment of $\$ 12.5$ million if the Tommy Bahama Group's earnings are $100 \%$ or greater than the applicable target. If the Tommy Bahama Group's earnings are between $90 \%$ and $100 \%$ of the applicable target, the annual basic contingent payment will be calculated on a straight line basis from $\$ 0$ to $\$ 12.5$ million. Up to $50 \%$ of any annual basic contingent payment may be paid in shares of our common stock at our option, and in the case of payments in the first two years, at the option of the selling stockholders of the Tommy Bahama Group. Shares of our common stock issued at our option will be valued at the average price on the New York Stock Exchange (or other applicable exchange) for the ten full trading days prior to the applicable payment date. Shares of our common stock issued at the option of the selling stockholders will be valued at $\$ 12.88$ per share.
All earnout payments to be paid to selling stockholders will be treated as additional purchase price and recorded as goodwill. Approximately $5 \%$ of the total value of all consideration that becomes due and payable under the earnout agreement has been designated to be paid toward an Employee Cash Bonus Plan to be distributed to employees of the Tommy Bahama Group under the terms of the plan. The earnout payments designated toward the Employee Cash Bonus Plan are charged to selling, general and administrative expense.
Additionally, if, at the end of the four year period, cumulative earnings exceed the cumulative targets, the selling stockholders will receive $33.33 \%$ of the cumulative excess up to a maximum cumulative additional contingent payment of $\$ 25.0$ million. Any cumulative additional contingent payment will be paid in cash.

The Year 1 contingent payment was earned in full and was paid during the first quarter of fiscal 2005 in the form of approximately $\$ 6.2$ million in cash and the remainder in our common stock valued at $\$ 12.88$ per share for total consideration of approximately $\$ 24.6$ million. Of this amount approximately $\$ 23.4$ million was recognized as goodwill with the remainder recognized as selling, general and administrative expense.

4. Acquisitions (continued):

The following table summarizes the fair values of the assets acquired and liabilities assumed at the date of acquisition for the Tommy Bahama Group.

|  | (\$ in thousands) |  |
| :---: | :---: | :---: |
| Total purchase price | \$ | 278,419 |
| Cash | \$ | 22,145 |
| Accounts receivable |  | 29,521 |
| Inventories |  | 27,697 |
| Other current assets |  | 6,015 |
| Goodwill |  | 110,164 |
| Intangibles |  | 153,360 |
| Property, plant and equipment |  | 28,087 |
| Other assets |  | 2,470 |
| Current liabilities |  | $(45,626)$ |
| Noncurrent liabilities |  | $(1,253)$ |
| Deferred taxes |  | $(54,161)$ |
| Fair value of net assets acquired | \$ | 278,419 |

These acquisitions helped us achieve one of our key strategic objectives of owning major lifestyle brands. The acquisitions provide strategic benefits through growth opportunities and further diversification of our business over distribution channels, price points, product categories and target customers. The results of operations of Ben Sherman and the Tommy Bahama Group are included in our consolidated statements of earnings from the respective dates of the acquisition.

## Pro-Forma financial information:

The pro forma financial information presented below gives effect to the Ben Sherman acquisition as if it had occurred as of the beginning of fiscal 2005 and fiscal 2004 and the Tommy Bahama acquisition as if it had occurred as of the beginning of fiscal 2004. The information presented below is for illustrative purposes only and is not indicative of results that would have been achieved if the acquisitions had occurred as of the beginning of fiscal 2005 and 2004 or results which may be achieved in the future.

 with other changes. At the time of this amendment, approximately $\$ 1.8$ million of unamortized deferred financing costs were expensed, which have been included in interest expense in the consolidated statement of earnings. Additionally, the terms and conditions of certain related agreements were modified in November 2004, including a change to a springing lock-box agreement, which results in amounts outstanding under the facility requiring classification as long-term debt subsequent to the modification.
(2) The U.K. Revolver and Seller Notes, both denominated in pounds sterling, were entered into on July 30, 2004, in conjunction with the Ben Sherman acquisition.

The U.S. Revolver, the U.K. Revolver and the Senior Unsecured Notes each include certain debt covenant restrictions that require us or our subsidiaries to maintain certain financial ratios that are customary for similar facilities. On and as of November 26, 2004 we were compliant with all debt covenant restrictions related to all debt agreements.

## 6. Shareholders' Equity (continued):

Accumulated other comprehensive income of $\$ 7.0$ million and $\$ 6.0$ million for the quarter and six months ended November 26, 2004 is comprised of the effects of foreign currency translation gains (loss), net of income taxes of $\$ 2.1$ million and $\$ 1.8$ million respectively which is included as a component of retained earnings in the condensed consolidated balance sheet. Comprehensive income for the quarter and six months ended November 26, 2004 was $\$ 16.1$ million and $\$ 21.3$ million, respectively. Net earnings and comprehensive income were equivalent for all other periods.
7. Segment Information: We organize the components of our business for purposes of allocating resources and assessing performance. Our reportable segments are the Menswear Group, the Womenswear Group and the Tommy Bahama Group. The Menswear Group produces branded and private label dress shirts, sport shirts, dress slacks, casual slacks, suits, sportscoats, suit separates, walkshorts, golf apparel, jeans, swimwear, footwear and headwear, operates one Ben Sherman retail store and licenses the Ben Sherman brand for other product categories. The Womenswear Group produces private label women's sportswear separates, coordinated sportswear, outerwear, dresses and swimwear. The Tommy Bahama Group produces lifestyle branded casual attire, operates retail stores and restaurants, and licenses the Tommy Bahama brand for other product categories. Corporate and Other is a reconciling category for reporting purposes and includes our corporate offices, LIFO inventory accounting adjustments and other costs that are not allocated to the operating groups. LIFO inventory calculations are made on a legal entity basis, which do not necessarily correspond to our segment definitions. Therefore, LIFO inventory accounting adjustments are not allocated to the operating segments. Total assets for Corporate and other include the LIFO inventory reserve of $\$ 37.1$ million, $\$ 35.5$ million and $\$ 35.5$ million at November 26, 2004, May 28, 2004 and November 28, 2003. respectively. Segment results are as follows:

## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) QUARTER ENDED NOVEMBER 26, 2004

8. New Accounting Standards: In November 2004, the Financial Accounting Standards Board, or FASB issued FASB Statement No. 151 "Inventory Costs, an Amendment of ARB No. 43 Chapter 4" ("FAS 151"). FAS 151 is applicable for inventory costs incurred during fiscal years beginning after June 15, 2005. FAS 151 requires that items such as idle facility expense, excessive spoilage, double freight, and rehandling be recognized as current-period charges rather than being included in inventory regardless of whether the costs meet the criterion of abnormal as defined in ARB 43 . We do not believe the adoption of the standard will have a material impact on us upon adoption in fiscal 2006 as we have historically expensed such costs as incurred.
In December 2004, the FASB issued FASB Statement No. 123 (Revised 2004) "Share-Based Payment: an Amendment of FASB Statements No. 123 and 95" ("FAS 123R"). FAS 123R is applicable for all interim and fiscal periods beginning after June 15, 2005. Therefore, we will adopt it during fiscal 2006. FAS 123R sets accounting requirements for "share-based" compensation to employees, requires companies to recognize in the income statement the grantdate fair value of stock options and other equity-based compensation issued to employees and disallows the use of the intrinsic value method of accounting for stock compensation. We are currently evaluating the impact that this statement will have on our results of operations.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our "Unaudited Condensed Consolidated Financial Statements" and the "Unaudited Notes to Condensed Consolidated Financial Statements" contained in this report and the "Consolidated Financial Statements," "Notes to Consolidated Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in our fiscal 2004 Form 10-K.

## OVERVIEW

We are engaged in the design, production and sale of consumer apparel for men, women and children. Our principal markets and customers are located in the United States. We source these products from third party producers, our owned manufacturing facilities and through our joint venture partners. We distribute our products primarily through our wholesale customers and our own retail stores.

The most significant factor impacting our results of operations for the current year was the completion of the acquisition of Ben Sherman, which we operate as part of our Menswear Group. Ben Sherman is a London-based designer, distributor and marketer of branded sportswear, accessories, and footwear.

In conjunction with the acquisition of Ben Sherman, our U.S. Revolver was amended and restated on July 28, 2004 and increased to $\$ 280$ million with a syndicate of eight financial institutions.

## RESULTS OF OPERATIONS

The following tables set forth: (1) the line items in the "Unaudited Condensed Consolidated Statements of Earnings," the dollar amounts of each for the periods indicated and the percentage change relative to the comparable period of the prior year, and (2) as a percentage of net sales. We have calculated all percentages based on actual data, but percentage columns may not add due to rounding. Individual line items of our "Unaudited Condensed Consolidated Statements of Earnings" may not be directly comparable to those of our competitors, as income statement classification of certain expenses may vary by company. The results of operations of Ben Sherman and the Tommy Bahama Group are included in our consolidated statements of earnings from the respective dates of the acquisition.

## ACQUISITION

On July 30, 2004, we acquired Ben Sherman. Ben Sherman is a London-based designer, distributor and marketer of branded sportswear, accessories, and footwear. The purchase price for Ben Sherman was $£ 80$ million, or approximately $\$ 145$ million, plus associated expenses. The transaction was financed with cash on hand and borrowings under our U.S. Revolver and Seller Notes payable to the management shareholders of Ben Sherman.

In conjunction with the acquisition of Ben Sherman, our U.S. Revolver was amended and restated on July 28, 2004 and increased to $\$ 280$ million with a syndicate of eight financial institutions. The maturity date was extended to July 28, 2009.

On July 30, 2004, Ben Sherman entered into a $£ 12$ million U.K. Revolver to provide for seasonal working capital requirements and general corporate purposes.
For further discussion of the acquisition, see Note 4 of "Unaudited Notes to Condensed Consolidated Financial Statements." For further discussion of financing arrangements, see the section below titled "Financing Arrangements" and Note 5 of "Unaudited Notes to Condensed Consolidated Financial Statements."

## TOTAL COMPANY

## Second Quarter

Net sales increased $23.2 \%$ from $\$ 253.9$ million in the second quarter of fiscal 2004 to $\$ 312.9$ million in the second quarter of fiscal 2005. The increase was primarily due to:

- A unit sales increase of $7.0 \%$, primarily attributable to the addition of Ben Sherman and increased sales of the Tommy Bahama Group partially offset by a decline in the Womenswear Group.
- An average selling price per unit increase of $15.2 \%$, primarily attributable to the shift in product mix due to an increase in Menswear sales and an increase in Tommy Bahama sales, both of which have higher average selling prices per unit, and a decline in Womenswear sales, which have a lower average selling price per unit.

Cost of goods sold for the second quarter of fiscal 2005 was $\$ 212.8$ million or $68.0 \%$ of net sales, compared to $\$ 177.0$ million or $69.7 \%$ of net sales in the second quarter of fiscal 2004. The decline in cost of goods sold, as a percentage of net sales, was primarily due to:

- The increased sales of the Tommy Bahama Group, which has higher gross margins.
- The acquisition of Ben Sherman, which has higher gross margins.
- The decreased sales of the Womenswear Group, which has lower gross margins.

Selling, general and administrative expenses ("SG\&A") increased from $\$ 59.2$ million or $23.3 \%$ of net sales in the second quarter of fiscal 2004 to $\$ 80.2$ million or $25.6 \%$ of net sales in the second quarter of fiscal 2005. The increase in SG\&A was primarily due to:

- The continued growth in the Tommy Bahama Group, which has a higher SG\&A expense structure.
- The acquisition of Ben Sherman, which also has a higher SG\&A expense structure.

Amortization of intangibles increased from $\$ 1.7$ million in the second quarter of fiscal 2004 to $\$ 2.4$ million in the second quarter of fiscal 2005 . The increase was primarily due to $\$ 0.9$ million of amortization of intangibles acquired as part of the Ben Sherman acquisition.

Royalties and other operating income increased from \$1.1 million in the second quarter of fiscal 2004 to \$3.3 million in the second quarter of fiscal 2005 primarily due to:

- Licensing income from additional licenses for the Tommy Bahama brand
- Higher revenues from existing licenses for the Tommy Bahama brand.
- Licensing income associated with the Ben Sherman brand.

Interest expense, net increased from $\$ 6.1$ million in the second quarter of fiscal 2004 to $\$ 6.9$ million in the second quarter of fiscal 2005 . The increase in interest expense was primarily due to the interest on debt incurred to finance the acquisition of Ben Sherman.

Income taxes. The effective tax rate was approximately $37.5 \%$ in the second quarter of fiscal 2004 and $35.0 \%$ in the second quarter of fiscal 2005. Variations in the effective tax rate were primarily attributable to:

- The acquisition of Ben Sherman, which is subject to lower statutory income tax rates in the United Kingdom.
- The relative distribution of pre-tax earnings among the various taxing jurisdictions in which we operate.

## Table of Contents

## First Half

Net sales increased $16.5 \%$ from $\$ 496.0$ million in the first half of fiscal 2004 to $\$ 577.7$ million in the first half of fiscal 2005. The increase was primarily due to:

- An average selling price per unit increase of $18.2 \%$ for the reasons stated above for the second quarter.
- A unit sales decline of $1.8 \%$ due to the decline in Womenswear, partially offset by the sales of Ben Sherman and the growth in Tommy Bahama.

Cost of goods sold for the first half of fiscal 2005 was $\$ 392.6$ million or $68.0 \%$ of net sales, compared to $\$ 348.3$ million or $70.2 \%$ of net sales in the first half of fiscal 2004. The decline in cost of goods sold, as a percentage of net sales, was primarily due to the reasons stated above for the second quarter.

SG\&A increased from $\$ 112.9$ million or $22.8 \%$ of net sales in the first half of fiscal 2004 to $\$ 147.7$ million or $25.6 \%$ of net sales in the first half of fiscal 2005. The increase in SG\&A was primarily due to the reasons stated above for the second quarter.

Amortization of intangibles increased from $\$ 3.4$ million in the first half of fiscal 2004 to $\$ 4.1$ million in the first half of fiscal 2005 primarily as a result of the amortization of intangibles acquired as part of the Ben Sherman acquisition.

Royalties and other operating income increased from $\$ 2.3$ million in the first half of fiscal 2004 to $\$ 5.1$ million in the first half of fiscal 2005 primarily due to the reasons stated above for the second quarter.

Interest expense, net increased from $\$ 11.8$ million in the first half of fiscal 2004 to $\$ 14.8$ million in the first half of fiscal 2005 . The increase in interest expense was due to:

- The interest on debt incurred to finance the acquisition of Ben Sherman.
- A non-cash write-off of $\$ 1.8$ million of deferred financing costs resulting from the modification of our U.S. Revolver in the first quarter of fiscal 2005.

Income taxes. The effective tax rate was approximately $37.8 \%$ in the first half of fiscal 2004 and $35.0 \%$ in the first half of fiscal 2005. Variations in the effective tax rate were primarily due to the reasons stated above for the second quarter.

## OUR SEGMENTS

We organize the components of our business for purposes of allocating resources and assessing performance. Our reportable segments are the Menswear Group, the Womenswear Group and the Tommy Bahama Group. The Menswear Group produces a variety of branded and private label sportswear, tailored clothing, dress shirts and golf apparel. The Menswear Group also operates one Ben Sherman retail store and licenses the Ben Sherman brand for other product categories. The Womenswear Group produces private label women's sportswear separates, coordinated sportswear, outerwear, dresses and swimwear. The Tommy Bahama Group produces lifestyle branded casual attire, operates retail stores and restaurants, and licenses the Tommy Bahama brand for other product categories. Corporate and Other is a reconciling category for reporting purposes and includes our corporate offices, LIFO inventory accounting adjustments and other costs that are

not allocated to the operating groups. LIFO inventory calculations are made on a legal entity basis, which do not correspond to our segment definitions. Therefore, LIFO inventory accounting adjustments are not allocated to the operating segments. Segment results are as follows:

## SEGMENT RESULTS

## Menswear Group

## Second Quarter

The Menswear Group reported a $57.0 \%$ increase in net sales from $\$ 115.3$ million in the second quarter of fiscal 2004 to $\$ 181.1$ million in the second quarter of fiscal 2005. The increase was primarily due to:

- $\$ 52.7$ million of Ben Sherman sales during the period.
- A unit sales increase of $53.0 \%$ for the segment, primarily due to the Ben Sherman operations and $14.7 \%$ from increases in other menswear business, which was primarily in the chain, direct mail and discount distribution channels.
- An average selling price per unit increase of $2.3 \%$ due to the acquisition of Ben Sherman which has a higher average selling price per unit than other lines.

The Menswear Group reported a $76.6 \%$ increase in operating income from $\$ 10.2$ million in the second quarter of fiscal 2004 to $\$ 18.0$ million in the second quarter of fiscal 2005. The increase in operating income was primarily due to the higher gross margins in our Ben Sherman business.

## First Half

The Menswear Group reported a $29.7 \%$ increase in net sales from $\$ 231.1$ million in the first half of fiscal 2004 to $\$ 299.8$ million in the first half of fiscal 2005. The change was primarily due to:

- $\quad \$ 69.2$ million of Ben Sherman sales during the period.
- A unit sales increase of $0.3 \%$ for the segment without considering Ben Sherman, and $25.3 \%$ overall.
- An average selling price per unit increase of $3.4 \%$, primarily due to the acquisition of Ben Sherman which has a higher average price per unit than other lines.

## Table of Contents

The Menswear Group reported a $36.9 \%$ increase in operating income from $\$ 19.7$ million in the first half of fiscal 2004 to $\$ 27.0$ million in the first half of fiscal 2005. The increase in operating income was primarily due to the higher gross margins in our Ben Sherman business.

## Womenswear Group

## Second Quarter

The Womenswear Group reported a $27.1 \%$ decline in net sales from $\$ 61.8$ million in the second quarter of fiscal 2004 to $\$ 45.1$ million in the second quarter of fiscal 2005. The change was primarily due to the unit sales decline of $28.7 \%$, primarily in the discount distribution channel, notably with Wal-Mart which has narrowed its womenswear assortment, reduced rack space devoted to women's apparel and placed greater emphasis on direct sourcing. The decline in unit sales was partially offset by an increase of $1.3 \%$ in the average selling price per unit, primarily due to product mix within the discount distribution channel.

The Womenswear Group reported an $89.0 \%$ decline in operating profit from $\$ 1.9$ million in the second quarter of fiscal 2004 to $\$ 0.2$ million in the second quarter of fiscal 2005. The change was primarily due to the significant decrease in sales, which was slightly offset by operating expense reductions.

## First Half

The Womenswear Group reported a $21.8 \%$ decline in net sales from $\$ 124.8$ million in the first half of fiscal 2004 to $\$ 97.6$ million in the first half of fiscal 2005. The change was primarily due to the unit sales decline of $25.0 \%$ due to the same reasons as described above for the second quarter. The decline in unit sales was partially offset by an increase of $2.6 \%$ in the average selling price per unit. The reasons for the increase in the average selling price per unit were the same as described above for the second quarter.

The Womenswear Group reported a $114.8 \%$ decline in operating income from a profit of $\$ 5.1$ million in the first half of fiscal 2004 to a loss of $\$ 0.8$ million in the first half of fiscal 2005. The decrease was primarily due to:

- The reduction in sales.
- Gross margin pressures.

## Tommy Bahama Group

## Second Quarter

The Tommy Bahama Group reported a $13.2 \%$ increase in net sales from $\$ 76.4$ million in the second quarter of fiscal 2004 to $\$ 86.5$ million in the second quarter of fiscal 2005. The increase was primarily due to:

- A unit sales increase of $7.1 \%$.
- An average selling price per unit increase of $4.8 \%$ primarily due to product and channel mix.
- An increase in the number of retail stores from 39 at the end of the second quarter of fiscal 2004 to 48 at the end of the second quarter of fiscal 2005.

## Table of Contents

The Tommy Bahama Group reported a $21.9 \%$ decline in operating income from $\$ 7.6$ million in the second quarter of fiscal 2004 to $\$ 5.9$ million in the second quarter of fiscal 2005. The decline in operating income was primarily due to:

- Increased marketing expenses including \$2.2 million related to our title sponsorship of the PGA sanctioned "Tommy Bahama Challenge Golf Tournament."
- Increased operating expenses related to opening new retail stores.

## First Half

The Tommy Bahama Group reported a $28.8 \%$ increase in net sales from $\$ 139.7$ million in the first half of fiscal 2004 to $\$ 180.0$ million in the first half of fiscal 2005. The increase was primarily due to:

- Ownership of Tommy Bahama for 24 of 26 weeks in the first half of fiscal 2004 as compared to the entire first half of fiscal 2005.
- A unit sales increase of $21.2 \%$.
- An average selling price per unit increase of $5.8 \%$ primarily due to product and channel mix.
- An increase in the number of total retail stores from 39 at the end of the first half of Fiscal 2004 to 48 at the end of the first half of Fiscal 2005

The Tommy Bahama Group reported a $22.8 \%$ increase in operating income from $\$ 14.5$ million in the first half of fiscal 2004 to $\$ 17.8$ million in the second half of fiscal 2005. The benefit of the increase in sales resulting from owning Tommy Bahama for the entire period noted above was partially offset by the increase in operating expenses described above for the second quarter.

## Corporate and Other

## Second Quarter

The Corporate and Other operating loss increased from $\$ 2.6$ million in the second quarter of fiscal 2004 to $\$ 3.3$ million in the second quarter of fiscal 2005 . The increase in the operating loss was primarily due to increased employment costs.

## First Half

The Corporate and Other operating loss increased from $\$ 5.5$ million in the first half of fiscal 2004 to $\$ 5.8$ million in the first half of fiscal 2005. The increase in the operating loss was primarily due to increased employment costs partially offset by LIFO inventory accounting.

## LIQUIDITY AND CAPITAL RESOURCES

## Financing Arrangements

## U.S. Revolver

In connection with the Ben Sherman acquisition on July 30, 2004, our U.S. Revolver was amended on July 28, 2004 and increased to $\$ 280$ million with a syndicate of eight financial institutions. The maturity date was extended to July 28, 2009. Under the amended U.S. Revolver, borrowing spreads and letter of credit fees are based upon a pricing grid, which is tied to a ratio of total debt to EBITDA, calculated as applicable on a pro forma basis. The credit agreement also requires us to maintain certain financial ratios. Our borrowings under the amended U.S. Revolver are no longer subject to a borrowing base calculation based on our accounts receivable, inventories and real property. The amendment of our U.S. Revolver resulted in a write-off of deferred financing costs of $\$ 1.8$ million in the first quarter of fiscal 2005. We are in compliance with the covenants as of November 26, 2004. At November 26, 2004, gross availability under the U.S. Revolver totaled $\$ 280.0$ million, against which approximately $\$ 129.8$ million in letters of credit and $\$ 116.7$ million in direct borrowings were outstanding.

On November 19, 2004, we amended the agreements governing our lockbox activities associated with the U.S. Revolver. In accordance with accounting principles generally accepted in the United States, the terms of the new agreements resulted in the reclassification of all debt outstanding under our $\$ 280$ million U.S. Revolver from a current liability to a non-current obligation on our balance sheet as of November 26, 2004. As a result of these agreements and the resulting reclassification, certain of our financial ratios, including but not limited to the current ratio, in current and future periods may not necessarily be comparable to prior periods.

## U.K. Revolver

On July 30, 2004, Ben Sherman entered into a $£ 12$ million U.K. Revolver to provide for seasonal working capital requirements and general corporate purposes. The facility is secured by substantially all of the United Kingdom assets of Ben Sherman and bears interest at the lender's prime or base rate plus $1.2 \%$. The facility is payable on demand and requires the borrower to maintain certain financial ratios. Ben Sherman is in compliance with these covenants as of November 26, 2004.

## Senior Unsecured Notes

On May 16, 2003, we completed a $\$ 200$ million private placement of our Senior Unsecured Notes to finance the acquisition of the Tommy Bahama Group. The notes bear interest at $8.875 \%$, have an 8 -year life and were sold at a discount of $0.713 \%$, or $\$ 1.4$ million, to yield an effective interest rate of $9.0 \%$. Interest is payable semi-annually with the principal amount due at maturity on June 1,2011 . The notes are guaranteed by all of our existing and future direct and indirect domestic wholly owned restricted subsidiaries. Among other restrictions, the indenture restricts our ability to incur additional indebtedness or liens, to enter into lease or hedging arrangements, to make investments and acquisitions, to sell assets, to pay dividends and to pay amounts due under the earnout agreement with the selling shareholders of the Tommy Bahama Group. The indenture also requires us to maintain certain financial ratios and covenants. We are in compliance with these covenants as of November 26, 2004.

## Seller Notes

In conjunction with our acquisition of Ben Sherman on July 30, 2004, we entered into Seller Notes with the management shareholders of Ben Sherman. The Seller Notes total approximately $\$ 6.9$ million and are payable on demand beginning six months after July 30 , 2004. The Seller Notes bear interest at the annual rate of LIBOR plus $1.2 \%$ payable on the last day of September, December, March and June until the principal has been paid in full.

## Table of Contents

## Operating Activities

During the first half of fiscal 2005, we generated cash from operating activities of $\$ 14.7$ million primarily from net earnings and non-cash charges offset by a net increase in working capital after giving effect to the acquisition of Ben Sherman.

During the first half of fiscal 2004, we generated cash from operating activities of $\$ 13.3$ million primarily from net earnings and non-cash charges offset by a net increase in working capital after giving effect to the acquisition of Tommy Bahama.

## Investing Activities

During the first half of fiscal 2005, investing activities used $\$ 146.5$ million in cash, principally for the acquisition of Ben Sherman as well as payments related to the Tommy Bahama earn-out agreement. Capital expenditures of $\$ 6.5$ million were primarily related to new Tommy Bahama retail stores as well as leasehold improvements and office equipment associated with the Tommy Bahama corporate offices.

During the first half of fiscal 2004, investing activities used $\$ 26.0$ million in cash, principally for the acquisition of the Tommy Bahama Group net of the reduction in restricted proceeds from the sale of the Senior Unsecured Notes. Capital expenditures of $\$ 7.3$ million were primarily related to new Tommy Bahama retail stores, computer equipment and software.

## Financing Activities

During the first half of fiscal 2005, financing activities generated $\$ 103.2$ million in cash. This represents the proceeds from increased U.S. Revolver debt and proceeds from the issuance of common stock upon the exercise of employee stock options, partially offset by payments on the U.K. Revolver during the period, deferred financing paid to amend our U.S. Revolver and dividends on our common shares.

During the first half of fiscal 2004, financing activities used $\$ 5.9$ million in cash. This represents payments on debt issuance costs related to the issuance of our Senior Unsecured Notes and dividends partially offset by proceeds from the issuance of common shares upon the exercise of employee stock options.

We have no off-balance sheet financing arrangements.

## CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our Unaudited Condensed Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to bad debts, inventories, intangible assets, income taxes, contingencies and litigation and certain other

## Table of Contents

accrued expenses. We base our estimates on historical experience and on various other assumptions that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Securities and Exchange Commission's Financial Reporting Release No. 60 requires all companies to include a discussion of the significant estimates, assumptions and judgments that underlie their critical accounting policies or methods used in the preparation of financial statements. See the "Summary of Critical Accounting Policies" contained in our fiscal 2004 Form 10-K. There have been no significant changes in our critical accounting policies as disclosed in our fiscal 2004 Form 10-K.

## SEASONALITY

Although our various product lines are sold on a year-round basis, the demand for specific products or styles may be highly seasonal. For example, the demand for golf and Tommy Bahama products is higher in the spring and summer seasons. Products are sold prior to each of our retail selling seasons, including spring, summer, fall and holiday. Because the timing of product shipments and other events affecting the retail business may vary, results for any particular quarter may not be indicative of results for the full year. The percentage of net sales distribution by quarter for fiscal 2004 were $22 \%, 23 \%, 25 \%$ and $30 \%$, respectively, and the percentage of net earnings by quarter for fiscal 2004 were $17 \%, 17 \%, 24 \%$ and $42 \%$, respectively.

## FUTURE LIQUIDITY, CAPITAL RESOURCES AND RESULTS OF OPERATIONS

Cash flow from operations is our primary source of liquidity. Our projected capital expenditures for all of fiscal 2005 are approximately $\$ 18$ million. We anticipate that cash flows from operations supplemented with borrowings as necessary under our amended U.S. Revolver and U.K. Revolver will be sufficient to fund our liquidity requirements for the remainder of fiscal 2005.

We anticipate Fiscal 2005 sales in the range of $\$ 1.285$ billion to $\$ 1.310$ billion and earnings per diluted share in the range of $\$ 2.60$ to $\$ 2.75$. For the third quarter of Fiscal 2005, we anticipate sales in the range of $\$ 350$ million to $\$ 365$ million and earnings per diluted share in the range of $\$ 0.65$ to $\$ 0.71$. For the fourth quarter of Fiscal 2005, we anticipate sales in the range of $\$ 355$ million to $\$ 370$ million and earnings per diluted share in the range of $\$ 1.06$ to $\$ 1.15$.

The statements in this section are forward-looking statements subject to the risks and uncertainties described below in "Cautionary Statements Regarding Forward-Looking Statements."

## CAUTIONARY STATEMENTS REGARDING FORWARD LOOKING STATEMENTS

Our Securities and Exchange Commission filings and public announcements often include forward-looking statements about future events. Important assumptions relating to these forward looking statements include, among others, assumptions regarding demand for our products, expected pricing levels, raw material costs, the timing and cost of planned capital expenditures, expected outcomes of pending litigation, competitive conditions, general economic conditions and expected synergies in connection with acquisitions and joint ventures, including the acquisition of Ben Sherman. Forward-looking statements reflect our current expectations and are not guarantees of performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. These beliefs and assumptions could prove inaccurate. Forward-looking statements involve risks and uncertainties. Should one or more of

these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. Many of these risks and uncertainties are beyond our ability to control or predict. Such risks and uncertainties include, but are not limited to, all of the risks discussed under "Risk Factors" in our fiscal 2004 Form 10-K, including the following:

- general economic cycles;
- competitive conditions in our industry;
- price deflation in the worldwide apparel industry;
- our ability to identify and respond to rapidly changing fashion trends and to offer innovative and upgraded products;
- changes in trade quotas or other trade regulations;
- our ability to continue to finance our working capital and growth on acceptable terms;
- significant changes in weather patterns (e.g., an unseasonably warm autumn) or natural disasters such as hurricanes, fires or flooding;
- the price and availability of raw materials;
- our dependence on and relationships with key customers;
- the ability of our third party producers to deliver quality products in a timely manner;
- potential disruptions in the operation of our distribution facilities;
- Any disruption or failure of our computer systems or data network.
- the integration of Ben Sherman into our company;
- our ability to successfully implement our growth plans for the acquired businesses;
- unforeseen liabilities associated with our acquisitions of the Tommy Bahama Group and Ben Sherman;
- economic and political conditions in the foreign countries in which we operate or source our products;
- increased competition from direct sourcing;
- our ability to maintain our licenses;
- our ability to protect our intellectual property and prevent our trademarks, service marks and goodwill from being harmed by competitors' products;
- our reliance on key management;
- risks associated with changes in global currency exchange rates;
- the impact of labor disputes and wars or acts of terrorism on our business;
- the effectiveness of our disclosure controls and procedures related to financial reporting;
- our inability to retain current pricing on our products due to competitive or other factors;
- the expansion of our business through the acquisition of new businesses; and
- our ability to open new retail stores

Other risks or uncertainties may be detailed from time to time in our future Securities and Exchange Commission filings.
We disclaim any intention, obligation or duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

## Table of Contents

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

## INTEREST RATE RISK

Interest rate risk is managed through the maintenance of a portfolio of variable and fixed rate debt composed of short and long-term instruments. The objective is to maintain a cost-effective mix that management deems appropriate. We generally do not engage in hedging activities with respect to such risk and do not enter into such transactions on a speculative basis.

We finance our capital needs through available cash, operating cash flow, letters of credit and bank revolving credit facilities.
At November 26, 2004, we had variable rate debt of $\$ 123.6$ million. Our average variable rate borrowings for the six months ended November 26 , 2004 were $\$ 78.5$ million, with an average interest rate of $4.4 \%$. If the six-month average interest rate increased by $10 \%$, our interest expense would have changed by \$163,711.

## FOREIGN CURRENCY RISK

We receive United States dollars for substantially all of our product sales except Ben Sherman. Sales generated by Ben Sherman's U.K. operations are denominated in pounds sterling and euros. Substantially all inventory purchases from contract manufacturers throughout the world are also denominated in United States dollars. However, purchase prices for our products may be impacted by fluctuations in the exchange rate between the United States dollar and the local currencies of the contract manufacturers, which may have the effect of increasing our cost of goods sold in the future. Exchange rate fluctuations have not had a material impact on our inventory costs; however, due to the number of currencies involved and the fact that not all foreign currencies react in the same manner against the United States dollar, we cannot quantify in any meaningful way the potential effect of such fluctuations on future income.

Ben Sherman engages in forward exchange contracts for the purchase of finished products from production sources in Asia where the currency denomination of choice is the United States dollar. These contracts are marked to market and are not material.

## TRADE POLICY RISK

Under the terms of bilateral agreements between most of the major apparel exporting countries and the United States, most categories of our products are subject to quotas limiting the quantity of such products that may be imported into the United States. Utilization of these quotas is typically controlled at origin by an export license or visa system administered by the exporting country and is monitored and enforced by United States Customs and Border Protection at the time of importation. Since we own or directly control only a small portion of the quota we need, we rely on our suppliers and vendors to secure the visas or licenses required to ship our products. If our suppliers and vendors fail to secure the necessary visas or licenses as agreed with us, our supply chain could be disrupted. The requirement for visas or licenses was eliminated effective for goods exported from their country of origin on or after January 1, 2005. Thus, the requirement only applies to goods exported on or before December 31, 2004, some of which might still be in transit.

## Table of Contents

If an exporting country fails to properly administer its quota and issues visas or export licenses in excess of the quantity permitted under the terms of its bilateral agreement with the United States, entry of the goods covered by such export license or visa could be delayed. The United States has announced that any goods exported during 2004 in excess of the applicable quota limit will not be permitted entry into the United States until February 1, 2005 at which time a "staged entry" process will begin. The staged entry process could, depending on the extent of any overshipment, take several months to complete. Such a delay could disrupt our supply chain.

Since the quotas under the bilateral agreements described above are country-specific, the United States has established detailed country of origin criteria that a product must meet to be eligible to use a particular country's quota. If we, or our vendors or suppliers, fail to comply with these country of origin requirements or fail to be able to document our compliance with such requirements, our products may be denied entry into the United States. Such a denial could disrupt our supply chain.

The 1994 Agreement on Textiles and Clothing among World Trade Organization ("WTO") countries mandated the elimination of textile and apparel product quotas for WTO countries, including the United States, on January 1, 2005. As a result, the international textile and apparel trade is undergoing a significant realignment which is changing our sourcing patterns, could disrupt our supply chain and could put us at a disadvantage to our competitors.

The elimination of quota could impact some shipments during the first part of calendar 2005. Historically, exporting countries have been permitted under the terms of their bilateral agreements with the United States to borrow a limited amount of quota from the following year. Since there is no quota in calendar 2005, none was available for this type of borrowing in calendar 2004. The unavailability of this type of quota borrowing may have created quota shortages in the latter part of calendar 2004, which could have caused exporting countries to ship goods in excess of their 2004 limit. Any such overshipment would be subject to the staged entry process described above which could cause disruption in our supply chain.

In addition, notwithstanding quota elimination, under the terms of China's WTO accession agreement, the United States and other WTO members may re-impose quotas on specific categories of products in the event it is determined that imports from China have surged or may surge and are threatening to create a market disruption for such categories of products (so called "safeguard quota"). China is a major source of production for us, and the re-imposition of safeguard quotas on China following the elimination of the existing quota regime on January 1, 2005 could cause disruption in our supply chain.

Furthermore, under long-standing statutory authority applicable to imported goods in general, the United States may unilaterally impose additional duties: (i) when imported merchandise is sold at less than fair value and causes material injury, or threatens to cause material injury, to the domestic industry producing a comparable product (generally known as "anti-dumping" duties); or (ii) when foreign producers receive certain types of governmental subsidies, and when the importation of their subsidized goods causes material injury, or threatens to cause material injury, to the domestic industry producing a comparable product (generally known as "countervailing" duties). The imposition of anti-dumping or countervailing duties on products we import would increase the cost of those products to us. We may not be able to pass on any such cost increase to our customers. There are numerous free trade agreements pending, including the United States-Central American Free Trade Agreement that, if adopted, could put us as a disadvantage to some of our competitors.

## ITEM 4. CONTROLS AND PROCEDURES

The Company's Principal Executive Officer and Principal Financial Officer have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, our Principal Executive Officer and the Principal Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

There have not been any changes in the our internal controls over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the fiscal quarter ended November 26, 2004 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
