OXFORD INDUSTRIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
QUARTERS ENDED FEBRUARY 26, 1999 AND FEBRUARY 27, 1998

1. The foregoing unaudited consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods. All such adjustments are of a normal recurring nature. The results for interim periods are not necessarily indicative of results to be expected for the entire fiscal year.
2. The financial information presented herein should be read in conjunction with the consolidated financial statements included in the Registrant's Annual Report on Form 10-K for the fiscal year ended May 29, 1998.
3. The Company is involved in certain legal matters primarily arising in the normal course of business. In the opinion of management, the Company's liability under any of these matters would not materially affect its financial condition or results of operations

Net sales for the third quarter of the 1999 fiscal year, which ended February 26, 1999, increased $15.3 \%$ from net sales for the same period of the prior year. Net sales for the first nine months of the current year increased $9.9 \%$ from net sales for the same period of the prior year.

The Womenswear Group posted a third quarter sales increase of $80.0 \%$ to $\$ 72,586,000$. Much of the increase was attributable to the acquisition of Next Day Apparel, Inc. (Next Day) which was completed at the beginning of the second quarter of the current year. The Collections and Sportswear Separates division posted healthy sales gains. The Women's Catalog and Special Markets division experienced a moderate sales decline.

Quarterly sales of $\$ 39,127,000$ were flat for the Company's tailored clothing group, Lanier Clothes. Sales increases in Women's Tailored Clothing, Nautica and Geoffrey Beene were offset by sales decreases in private label and Oscar de la Renta.

The Oxford Shirt Group posted a modest sales decline of $3.4 \%$ to $\$ 69,871,000$ for the third quarter due primarily to weakness in Oxford Shirtings, the Company's private label dress shirt division, and restricted distribution of the Tommy Hilfiger Golf line. Tommy Hilfiger Dress shirts, Polo/Ralph Lauren for Boys, OxSport and Ely \& Walker all posted sales increases.

The Oxford Slacks Group posted a third quarter sales decline of $7.1 \%$ to $\$ 23,868,000$ due to general market weakness in this sector.

In the third quarter of the current year, the Company experienced a $31.2 \%$ increase in unit volume and a decline of $12.1 \%$ in the weighted average sales price per unit. For the first nine months of the current year, the Company experienced a $16.8 \%$ increase in unit volume and a decline of $5.9 \%$ in the weighted average sales price per unit. The two greatest contributors to this change were the Next Day acquisition, and increased sales in the Separates and Collections divisions, all of which are lower cost - lower margin private label businesses.

COST OF GOODS SOLD
Cost of goods sold as a percentage of net sales was $80.6 \%$ in the third quarter of the current year and $80.1 \%$ in the third quarter of the prior year. For the first nine months of the current year, cost of goods sold as a percentage of net sales was $80.6 \%$ compared to $80.4 \%$ for the first nine months of the prior year. The increase in cost of goods sold as a percentage of net sales was due to a number of factors. The Company continued the build-up of sewing operations in its new sewing facilities in Honduras and Mexico during the quarter. The acquisition of Next Day and the increased sales in the Separates and Collections division lowered the overall gross margin of the Company. During the third quarter, the Company announced the forthcoming closure of its domestic sewing facilities in Vidalia, Georgia and Fayette, Alabama.

## SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative (S G \& A) expenses increased by $8.9 \%$ from $\$ 26,018,000$ or $14.6 \%$ of net sales in the third quarter of the prior year to $\$ 28,329,000$ or $13.8 \%$ of net sales in the third quarter of the current year. S G \& A increased by 7.6\% from $\$ 80,719,000$ or $13.9 \%$ of net sales in the first nine months of the prior year to $\$ 86,843,000$ or $13.6 \%$ of net sales in the first nine months of the current year. The largest contributor to the decreased ratio of S G \& A to net sales in the third quarter was the acquisition of Next Day with its lower S G \& A structure. Offsetting the Next Day impact somewhat was the continued increase in the licensed designer business with its S G \& A structure at more than twice the relative (percent of sales) expense levels of the Company's private label business.

## INTEREST EXPENSE

Net interest expense increased by $91.9 \%$ from $\$ 664,000$ or $0.4 \%$ of net sales in the third quarter of the prior year to $\$ 1,274,000$ or $0.6 \%$ of net sales in the third quarter of the current year. For the first nine months of the current year, net interest expense increased by $31.6 \%$ from $\$ 2,663,000$ or $0.5 \%$ of net sales in the prior year to $\$ 3,505,000$ or $0.6 \%$ of net sales in the current year. The increase in interest expense as primarily due to the acquisition of Next Day and the repurchase of the Company's common stock.

## INCOME TAXES

The Company's effective tax rate was $39.0 \%$ in the third quarter and first nine months of both the current year and the previous year and does not differ significantly from the Company's statutory rate.

## FUTURE OPERATING RESULTS

The Company has observed some signs of improvement at retail since the Holiday season. The Company anticipates fourth quarter sales increases in line with the current year-to-date sales increase, however, the fourth quarter earnings increase is not expected to keep pace with the sales increase.

## YEAR 2000

The Company is working to resolve the effects of the Year 2000 issue on its information systems. The Year 2000 issue, which is common to most businesses, concerns the inability of information systems to properly recognize and process dates and date sensitive information on and beyond January 1, 2000. In 1996, the Company began a Company-wide assessment of the vulnerability of its systems to the Year 2000 issue. Based on such assessment, the Company has developed a Year 2000 compliance plan, under which all key information systems are being tested, and non-compliant software or technology is being modified or replaced. The Company is also surveying the Year 2000 compliance status and compatibility of customers and suppliers systems which interface with the Company's systems or could otherwise impact the Company's operations.

While the Company currently believes it will be able to modify or replace its affected systems in ample time to minimize any detrimental effects on its operations, failure to do so, or the failure of the Company's major customers and suppliers to modify or replace their affected systems, could have a material adverse impact on the Company's results of operations, liquidity or consolidated financial positions in the future. The most reasonably likely worst case scenario of failure by the Company or its customers or suppliers to resolve the Year 2000 issue would be a temporary slow down or cessation of manufacturing operations at one or more of the Company's facilities and a temporary inability on the part of the Company to timely process orders and billings and to deliver finished product to customers. The Company is considering various contingency options, including identification of alternate suppliers, vendors and service providers, and manual alternatives to systems operation, which will allow the Company to minimize the risks of any unresolved Year 2000 problems on its operations, and to minimize the effect of any unforeseen Year 2000 failures. The Company currently estimates the incremental cost of the work needed to resolve the Year 2000 issue, since the inception of the project in 1996 to its completion, to be approximately \$1,600, 000.

## LIQUIDITY AND CAPITAL RESOURCES

## OPERATING ACTIVITIES

Operating activities used $\$ 7,053,000$ in the nine months of the current year and used $\$ 2,474,000$ in the nine months of the prior year. The primary factor contributing to the change in the amount of funds used was a greater increase in receivables than in the prior year, primarily due to the acquisition of Next Day Apparel, Inc.
used $\$ 3,559,000$ in the prior year. The change in the used funds was the acquisition of Next Day Apparel, Inc.

## FINANCING ACTIVITIES

Financing activities generated $\$ 27,664,000$ in the current year and $\$ 5,533,000$ in the prior year. The primary factors contributing to this change was increased short-term borrowings partially offset by the purchase and retirement of the Company's common stock. The balance of the increase in short-term borrowings was primarily due to the acquisition of Next Day.

On April 5, 1999 the Company's Board of Directors declared a cash dividend of $\$ .21$ per share payable on May 29, 1999 to shareholders of record on May 14, 1999.

During the nine months, the Company purchased and retired 757,500 shares of the Company's common stock acquired on the open market. Subsequent to the end of the third quarter through April 5, 1999 the Company has purchased and retired 46,000 shares of its common stock.

During the nine months, the Company issued 25,920 shares of the Company's common stock in conjunction with the Company's employee stock option plans.

## WORKING CAPITAL

Working capital increased from $\$ 166,355,000$ at the end of the third quarter of the prior year to $\$ 169,465,000$ at the end of the 1998 fiscal year and decreased to $\$ 153,994,000$ at the end of the third quarter of the current year. The ratio of current assets to current liabilities was 2.7 at the end of the third quarter of the prior year, 2.7 at the end of the prior fiscal year, and 2.0 at the end of the third quarter of the current year.

## FUTURE LIQUIDITY AND CAPITAL RESOURCES

The Company believes it has the ability to generate cash and/or has available borrowing capacity to meet its foreseeable needs. The sources of funds primarily include funds provided by operations and both short-term and long-term borrowings. The uses of funds primarily include working capital requirements, capital expenditures, acquisitions, dividends and repayment of short-term and long-term debt. The Company regularly utilizes committed bank lines of credit and other uncommitted bank resources to meet working capital requirements. On February 26, 1999, the Company had available for its use lines of credit with several lenders aggregating \$52,000,000. The Company has agreed to pay commitment fees for these available lines of credit. On February 26, 1999, $\$ 52,000,000$ was in use under these lines, of which $\$ 40,000.00$ was long-term. In addition, the Company has $\$ 250,500,000$ in uncommitted lines of credit, of which $\$ 127,500,000$ is reserved exclusively for letters of credit. The Company pays no commitment fees for these available lines of credit. On February 26, 1999, $\$ 54,000,000$ was in use under these lines of credit. Maximum borrowings from all these sources during the current year were $\$ 108,500,000$ of which $\$ 40,000,000$ was long-term. The Company anticipates continued use and availability of both committed and uncommitted resources as working capital needs may require.

The Company considers possible acquisitions of apparelrelated businesses that are compatible with its long-term strategies. The Company's Board of Directors has authorized the Company to purchase shares of the Company's common stock on the open market and in negotiated trades as conditions and opportunities warrant. There are no present plans to sell securities (other than through employee stock option plans and other employee benefits)or enter into offbalance sheet financing arrangements.

Certain statements included herein are "forward-looking statements" within the meaning of the federal securities laws. This includes any statements concerning plans and objectives of management relating to the Company's operations or economic performance, and assumptions related thereto. In addition, the Company and its representatives may from time to time make other oral or written statements that are also forward-looking statements.

These forward-looking statements are made based on management's expectations and beliefs concerning future events impacting the Company and therefore involve a number of risks and uncertainties. Management cautions that forward-looking statements are not guarantees and that actual results could differ materially from those express or implied in the forward-looking statements.

Important factors that could cause the actual results of operations or financial condition of the Company to differ include, but are not necessarily limited to, general economic and apparel business conditions, continued retailer and consumer acceptance of company products, and global manufacturing costs.
